

9938 MET/TEMP II Temperature Calibration Software v5

Temperature calibration software

9938 MET/TEMP II Temperature Calibration Software v5

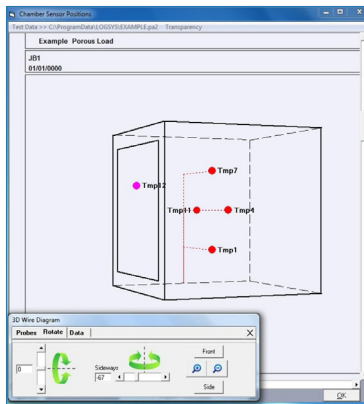

New version of the proven solution for automated temperature calibration

- Compatible with Windows 7 and 8 operating systems
- Adds support for 9190A Field Metrology Well and 9118A Thermocouple Furnace
- Calibrate PRTs, SPRTs, thermistors, thermocouples, and even liquid-in-glass (LIGs), bi-metallic thermometers, and connected sensors that can't be attached to a readout
- Supports multiple temperature sources and reference probes in the same test for faster calibration and extended test range

TQSoft and TQAero Thermal Validation Software

For FDA 21 CFR Part 11 and AMS 2750 Compliant Data Collection

- Support for Fluke 2638A and 1586A, for enhanced data collection and reporting in regulated industries
- Easy menu system and toolbar
- Test equipment preparation and sensor calibration
- Data security, audit trail, and compliance reports

TQSoft and TQAero Thermal Validation Software

LogWare

Turn a Fluke Calibration single-channel handheld or 1502A/1504 readout into a real-time data logger.

- Collects real-time data
- Calculates statistics and displays customizable graphs
- Allows user-selected start times, stop times and sample intervals

LogWare II

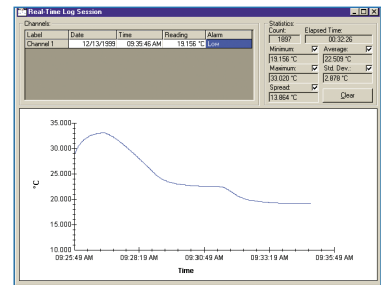

Turn any Fluke Calibration multi-channel thermometer readout into a real-time data logger.

- Collects real-time data using Fluke Calibration multi-channel readouts
- Calculates statistics and displays customizable graphs
- Allows user-selected start times, stop times and sample intervals

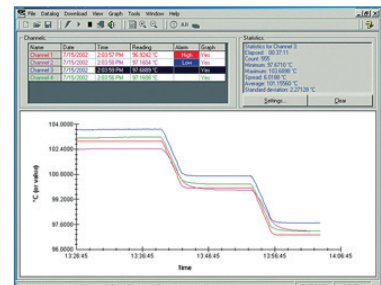

LogWare III

Remotely monitor and log a virtually unlimited number of concurrent log sessions into a central data repository.

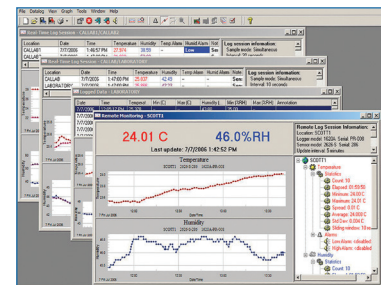

- Up to two temperature and two humidity inputs for each DewK
- Customize your graph trace color, alarms, and statistics as you go
