

## Welcome to the launch page for MET/CAL® *Plus* 8.0 Software

MET/CAL® *Plus* 8.0 adds many new enhancements, including an expanded Procedure Editor with a more flexible user interface, more powerful functions for editing, testing, and storing procedures, increased security allowing users to create procedures that cannot be edited or changed by others, and the ability to automate a wider variety of references including power sensors, power meters, and National Instruments PXI.
